

The Aragon Business Confederation (CEOE Aragon) in Zaragoza organized, on 16 May, a business forum on opportunities for investing in Serbia. Companies interested in doing business with Serbia took part in the seminar, inaugurated by Ambassador of the Republic of Serbia in Madrid Danko Prokic and by President of CEOE Aragon Fernando Callizo.

The meeting featured discussions about stability and Serbia's productivity level, and about opportunities offered by Serbia as an EU Candidate Country. Serbia's opportunities were assessed as attractive for different activities, including construction, infrastructure, consulting, automotive and agricultural and food industries. It was highlighted that Serbia offered export opportunities free of customs duties and access to markets with more than 180 million consumers, owing to its FTA with Russia, Belarus and Kazakhstan.

The most famous Spanish economic and business magazine "Expansión" made a report to its readers on this seminar.
