

On 31 August, on the premises of the Consulate General of the Republic of Serbia, Ms. Dunja Mihalacki, a design, textiles and clothing engineer from Novi Sad, presented her collection of authentic men's and women's bags to New York audiences. Ms. Mihalacki is the author behind the "Dum" brand comprising limited series of hand-made bags utilizing vinyl and fabric printing technique.

The presented collection titled "Vitamin" includes art pieces of simple form and modern design. The author said her work did not fit into fashion industry standards as she refused consumerism to be a determining factor of her artistic output.

The presentation was attended by a large number of art and design admirers who, in a discussion with Ms. Dunja Mihalacki, expressed their interest for the printing technique and making of handbags.
