

In Serbia, the most important investors among the EU countries are: Italy, Germany, Austria, Slovenia, France, Greece and the Netherlands.

The economic crisis in the post-2008 period resulted in the decline in foreign direct investment, but also led to an increased share of European investors in overall investments in Serbia.

Foreign companies invested most in the automotive industry, food, textile, machining, electronics and wood industries, as well as in the field of tourism. Full details may be found on the website <http://www.mfp.gov.rs>.
