

Baku: "Tesla in Modern Belgrade" photo exhibition

Monday, 09 October 2017.

A photo exhibition by Olivera Jankovic titled "Tesla in Modern Belgrade" has opened in Azerbaijan's capital, Baku, at the gallery of Landmark Hotel. The exhibition's concept is based on Tesla's personal drive towards invention, to whom a grand monument was erected in Baku, the only one of its kind dedicated to a foreign scientist.

A large number of diplomats in attendance affirmed the need to depict the life and work of Nikola Tesla as well as modern-day Belgrade, receiving great attention of the guests.
