

An evening devoted to Slavic cultural dialogue, the latest scientific publications and translations of Serbian classical works in Russian was held in the Embassy of Serbia in Moscow with participation of Ilya Chislov, a Slavic scholar and President of the Society of Serbian-Russian Friendship.

The guests were welcomed by Ambassador Slavenko Terzic who expressed his pleasure at this event bringing together Russian scientists and Slavic scholars dealing with Serbia. He particularly emphasized fruitful scientific and Slavic cooperation in this year. Among other things, on 15-16 October 2018, a major scientific conference was held in Moscow – International Scientific Conference "180 years of friendship, trust, cooperation: anniversary of the establishment of Serbian-Russian relations".

In their statements, the participants devoted special attention to the growing interest in Serbian culture in Russia, research of Russian-Serbian relations, heritage of Slavic traditions and future projects. Ambassador Terzic received special expressions of gratitude for his commitment in promoting contacts, events and publications of scientific and Slavic editions and meetings.
