

First Deputy Prime Minister and Minister of Foreign Affairs Ivica Dacic addressed his condolence message to the family, friends and numerous fans of the actress Milena Dravic who passed away.

"As a friend and great admirer of the roles she was cast in, I offer my deepest condolences to the family, friends and fans of her acting excellence.

Milena and Dragan marked an epoch in the Serbian and Yugoslav art. With their always suggestive and unique way of acting as well as with their rare charm, they were the inspiration of many generations.

I will never forget them and I am convinced that they will be the role model to the generations to come not only as actors but as great people as well. Serbia owes them a resting place together at the cemetery section for prominent personalities. They were true giants of our country."
