He stressed that the efforts made by China to suppress the epidemic were admired in Serbia and conveyed his belief that the current situation will be resolved promptly, allowing China to return in full capacity to its development goals.

The officials assessed as very positive the progress made in the bilateral relations and mutual political confidence-building, to be given further impetus by the upcoming visit by President Vucic to China in April to take part in the China-CEEC Summit as well as the visit by President Xi to Serbia later this year.

They underlined in particular that the fostering of inter-party relations was a contributing factor in the context of overall bilateral relations.
